

FEATHERSTONE'S BESPOKE WEDDINGS

Luxury Seasonal Abundance

A photograph of a wedding scene. On the left, a bottle of Thomson & Scott Nocthy Organic Sparkling Chardonnay stands on a white surface. The bottle is green with a white label that reads 'THOMSON & SCOTT NOCTHY ORGANIC SPARKLING CHARDONNAY ALCOHOL FREE'. To the right of the bottle is a two-tiered white wedding cake on a white pedestal. The cake is decorated with a bouquet of flowers, including large pink and orange roses, purple dahlias, and smaller pink and white flowers. The background is a soft-focus floral arrangement with various colors of flowers and greenery.

Thank you very much for enquiring about our bespoke floral design for your wedding flowers.

Our bespoke wedding service includes everything from an initial consultation, detailed floral proposal, mood boards, site visits, floral designs, on the day set up and clear down. Please have a read of the following information to find out more and do get in touch with any questions and to book in an initial consultation.

ABOUT US

Featherstone's English Flower Co. is a sustainable flower farm offering a full floristry and floral design service in rolling Hampshire Hills, just outside Stockbridge. Co-founded by Jess and Katie, two passionate and experienced horticulturalists and florists, we grow an incredible range of seasonal flowers and abundant foliage. A breath-taking, unique fifteenth century tithe barn is the headquarters for our full floristry service, events, and workshops.

OUR FARM

Featherstone's is situated in Nether Wallop, just outside of Stockbridge in the picturesque Test Valley. We currently cultivate 3 acres of land with over a thousand varieties of flowers and foliage, specially selected by Jess and Katie to be perfect for your wedding. You are more than welcome to visit the farm and explore the huge variety of flowers we grow. For many of our couples holding their Hen Do at the farm is a wonderful experience - from harvesting buckets of flowers, to learning to create a hand-tied bouquet to enjoying a delicious cream tea surrounded by our stunning views.

OUR STYLE

is naturally abundant, celebrating the seasons, timeless and romantic.

Our design philosophy stems from the seasons, celebrating the best of British flowers, and embracing what makes them unique – be that the delicate grace of spring bulbs, the scented opulence of roses in June or the autumnal charm of berries and rose hips. By designing with the seasons, we create arrangements that are intimately connected to the one-off moment that is your wedding day. As a result, your wedding carries a strong sense of time and place, the flowers designed to naturally enhance and decorate your venue, blending seamlessly with the wider landscape.

SCENT

Scent, with its remarkable power for creating everlasting memories, plays a hugely important part in our floral design process. Through meticulous crop planning, we incorporate scented elements into every wedding, including fragrant flowers, aromatic herbs, and foliage. This is our way of filling your celebration with the sheer joy of locally grown, beautifully scented flowers. In the years to come, the delicate fragrance of winter paperwhites, the sweet scent of May's sweet peas, or the intoxicating perfume of June's roses will instantly transport you back to the magic of your special day, creating timeless and evocative scent memories.

SUSTAINABILITY

We remain steadfast in our dedication to sustainability, aiming to minimise the ecological footprint of your wedding flowers. As proud members of the Sustainable Wedding Alliance, we contribute to the collective efforts of the wedding industry in promoting ethical and sustainable practices.

Our choice to exclusively use locally grown flowers in our designs significantly reduces the carbon footprint of your wedding flowers, often by up to 95%.

By not using any imported flowers in our designs the carbon footprint of your wedding flowers is dramatically reduced – by up to 95% in many cases.

We strive to minimise waste in both our farm and floristry operations. All green waste is composted to enrich our soil for the following year's blooms.

Unlike using floral foam, which is harmful to aquatic life and a single use plastic, we prioritise reusable mechanics to reduce unnecessary waste.

Our extensive selection of items, including candle holders, vases, bud vases, lanterns, urns, plinths, and more, can be incorporated into our design proposals and quotes. This not only eliminates the need for you to source these items separately but also ensures their continued reuse, promoting sustainability.

THE PROCESS: ENQUIRY

Our bespoke wedding flowers process tends to start around 6 – 18 months before your wedding date, once you have selected and confirmed your venue. If you love the sound of our ethos and design philosophy we ask that you fill in our wedding enquiry form (online) to give us the initial outline of your requirements.

Upon receiving your enquiry, we will check the date is still available in our diary, and if so, arrange an initial telephone call with Katie, to find out more about your wedding plans. During this call we can start to gather details such as your colour palette, the feeling you wish to create on your wedding day, your top priorities, budget, event schedule, and venue access specifics. Please don't worry if you haven't got any firm ideas at this stage – this is where we love to help and chat all about gorgeous varieties of flowers available and options for designs for your venue.

After this conversation, we will provide you with a mood board featuring the seasonal flowers available within your colour palette, an outline of the different elements discussed and a cost estimate.

SECURING THE DATE

Once you have received your initial proposal, should you wish to proceed and confirm your wedding date in our calendar we kindly request a £500 non-refundable booking fee.

The remaining balance will be due six weeks before your wedding day. Once your booking is confirmed, we will arrange a venue visit with you to walk through your wedding day and suggest where and how you can use flowers, foliage, plants, and other items such as lanterns and candles to enhance and decorate, bringing your personality and style to the space. Following the site visit we will create a comprehensive floral proposal, quotation, and installation plan. If you are around 12 months before your wedding date at this stage, we invite you to the farm to see the range of flowers growing within the same season as your wedding.

WHAT HAPPENS NEXT

From there our team will be busy behind the scenes, growing and nurturing your wedding flowers, communicating with your other wedding suppliers, venue, and coordinator to ensure a seamless process for you. Around two months before your wedding day we will arrange a meeting to discuss and confirm all the final details. In the weeks leading up to the wedding we love for our couples to come to the farm and see the actual flowers growing in the field that will be filling their wedding day - this is often a special, quiet moment for you both to have a little breather amid the wedding preparations.

The days leading up to your wedding will be spent harvesting, conditioning, and preparing all your flowers ready to be installed on your wedding day. Katie and her team will be on site ensuring all the flowers are perfect for you, before personally delivering your bouquets and buttonholes and wishing you the best of luck on your wedding day.

WEDDING PRICE GUIDE

Please use the following as a price guide when considering your floral investment for your wedding. These are our 'starting from' prices for 2024 and into 2025, but your quotation will be completely personal to you and the information collected in the initial consultation. This is by no means an exhaustive list of options but does cover the most requested items.
