

FEATHERSTONE'S  
FAREWELL FLOWERS  
Natural - Seasonal - Sustainable

## BEAUTIFUL, SEASONAL TRIBUTES

Our seasonally inspired, naturalistic arrangements use sustainably grown flowers and environmentally friendly, biodegradable materials, making them perfect for those who had a love for nature and the outdoors.

Committed to sustainability, we do not use floral foam in any of our arrangements. Instead, we rely on natural, compostable, or reusable materials that allow for greater creativity and a more organic and natural aesthetic.

## NATURAL BURIALS

As all our arrangements are completely foam and plastic free they are perfectly suited to natural and green burials.

## UNIQUE AND INDIVIDUAL

At Featherstone's, we understand that losing a loved one is a difficult time, and we believe that the flowers used in a funeral should be as individual and special as the person being remembered. That's why we specialise in creating bespoke and beautiful funeral arrangements that reflect the individuality and personality of your loved one.

As part of our unique approach, you are welcome to visit the farm to choose the types of flowers you would like to be included in arrangements. We love to incorporate personal items, from a favourite trug for an avid gardener, to a deck of cards for a keen bridge player.

## ONGOING MEMORIES

We offer a variety of options including incorporating bulbs and plants into arrangements which are perfect to plant in your garden as a special memory. This can also include posies within the arrangement to give to friends and family following the service.

For green burial sites we often add wildflower seeds within the biodegradable moss bases, which naturally scatter and flower for years to come.

## TESTIMONIALS

"I just wanted to say how beautifully arranged the casket piece for my dad was. Everyone commented on it at the funeral and loved his tennis racket incorporated and how they could take posies home with them too. It seems such an unlikely event to gain such joy from this, but the naturalistic appearance, scent and props combined to give a little special glimpse of his personality and character. That really made for a talking point and was hugely comforting to me because I knew it reflected nature and was seasonal which was so important for my Dad. Thank you to you and your team for making it so special."

"...the most natural arrangement which looked like it had been plucked from the woodland floor- my Grandmother would have been delighted. The flowers from the funeral were then lovingly planted in the garden as a lasting memory- It was wonderful to be offered this option...."

"Thank you for the absolutely beautiful arrangement of country flowers you made for my Dad's Casket. It was the most beautiful send off and your flowers made it even more perfect."
